Subject: Armann's notes from SoCal Meetings
Sites not meeting goals..xlsx

Dan and Ajit, my notes are in the worksheet titled, "No Remedy Construction".

My general observations.

1. There are many sites where the final remedy is MNA with an LUC. These could be fast tracked if necessary.
2. Managers and Staff are hesitant about moving commitments up. Missing a commitment is taken very seriously. There may be an opportunity to "challenge" folks to move faster.
3. Meeting the 2020 goal may be a challenge but we won't be far off.
4. Sites in both Region 3 and 4 are close to being completed.
5. Still a few difficult sites, but they are being worked on.
